PERSONAL PROJECTS

E-Commerce Website
Online Shop website using Bootstrap JavaScript React.js
  - The project of E-Commerce was about to selling the goods online where i have created a sections like Home Page, Cart section and About section. Home page basic products like daily use products were displayed which the user can see in detail if he /she clicks on it, If the user wants to purchase the product then he/she must have to add it in cart and a Bill.

Hotel Booking
Technologies Used JavaScript HTML CSS React.JS
  - This hotel booking app serves as a simple yet functional platform for users to browse, search, and book hotel rooms. and make reservations, all within a responsive and user-friendly layout.
  - This project provides a hands-on introduction to front-end development with React. It also improves your CSS skills for responsive design and enhances your understanding of handling user input and displaying data dynamically.
